
Report to Partnership & Performance Committee

Date of Meeting: 31 January 2019

Subject: Procurement Strategy Report

Report by: Strategic Director Partnership & Performance

1.0 Purpose

- 1.1. The Procurement Reform (Scotland) Act 2014 Section 18 States that the Council must prepare a procurement strategy by 31 December 2016.
- 1.2. Following on from the interim procurement strategy approved by Council on 15th December 2016, approval is sought from the Partnership & Performance Committee to adopt the procurement strategy to cover the period from March 2019 to March 2022 to comply with the requirements of the Procurement Reform (Scotland) Act.

2.0 Recommendations

- 2.1. It is recommended that Committee:
 - 2.1.1. agrees to adopt the Procurement Strategy as attached at Appendix A;
 - 2.1.2. notes that the Procurement Strategy will be subject to an annual review.

3.0 Considerations

- 3.1. This Strategy sets out how the Council will:
 - Make procurement more straightforward for suppliers and the Council alike
 - Increase the professionalism and commercial skill of those carrying out procurements for the Council
 - Provide opportunities to local and SME suppliers, including third sector organisations, to participate by increasing visibility of the Council's procurement plans and opportunities
 - Maximise innovation, sustainability and collaboration in procurement activities

- Work with the Integrated Joint Board(IJB) in the provision of Adult Social Care Services
- 3.2. The Procurement strategy provides a vision for procurement, identifies procurement principles and a work plan to deliver the 6 key themes. Its development followed on from the adoption of an interim strategy which committed to an engagement exercise being carried out with local stakeholders. The engagement exercise was widely promoted amongst stakeholder groups and the feedback is reported in Appendix 2. In total, 3 organisations responded.
- 3.3. Views from the all member briefing, meetings in partnership with the Council leaders, advice sought from senior management within Scotland Excel and comments from external audit has been obtained. Following on from this some changes have been made from the interim strategy to reflect these views namely:
- Spend analysis updated to reflect up to date financial information
 - Additional detail of spend by business sector locally.
 - A additional action considering any of the implications of Brexit across our procurement portfolio
 - A additional action to Increase local procurement expenditure by 2.5% per year from 14% to 21.5% or greater over the life of the strategy
- 3.4. The strategy will be reviewed annually to ensure ongoing alignment with corporate priorities.

4.0 Sustainability Implications

- 4.1. The strategy refers to support to encourage an effective local supplier market including the voluntary sector and the promotion of local social value in contracts
- 4.2. It also demonstrates how the Flexible Framework Self-Assessment Tool (FFSAT) will provide a Sustainable Action Plan to establish the performance level of sustainable procurement across the council and commits to establish systems to record the impact of procurement policies and practices in support of the council's climate change duties.

5.0 Resource Implications

5.1. Financial Details

- 5.2. The full financial implications of the recommendations are set out in the report. This includes a reference to full life cycle costs where appropriate. Yes
- 5.3. Finance have been consulted and have agreed the financial implications as set out in the report. Yes

5.4. Staffing

6.0 Exempt Reports

1 Introduction

This Strategy is aimed at promoting effective procurement across the Council.

This Strategy sets out how the Council will:

- make procurement easier for suppliers and the Council alike
- increase the professionalism and commercial skill of those carrying out procurements for the Council
- give opportunity to local and SME suppliers to participate by increasing visibility of the Council's procurement plans and opportunities
- maximise innovation, sustainability and collaboration in procurement activities

The Council developed an Interim Procurement Strategy covering the latter part of the 2016/17 financial year and the full 2017/18 financial year¹ to comply with the requirement to prepare and publish a procurement strategy by 31 December 2016.

During 2017/18 the Council undertook a consultation exercise in order to prepare the full procurement strategy. The Consultation was undertaken using the Council consultation hub and took place between August and September 2017.

Correspondence was also sent to a number of external stakeholders making them aware of the consultation and seeking views from their members and extended networks.

The purpose of the Consultation was to ensure that the Council's approach and procurement strategy takes account of stakeholders' views and those stakeholders had the opportunity to engage and contribute to development of the strategy.

The Council wanted to gain a better understanding of the needs of the area and tailor the strategy to reflect those needs. One of the key areas that the strategy addresses is the Council's policy on consulting and engaging with those affected by its procurements.

The Council aims to be flexible and to respond to the rapidly changing environment around public sector procurement and to learn from its own experience and the experiences of others. The rapidly changing environment is well illustrated by the pace of technological change currently associated with e-procurement.

The overarching purpose of the Strategy is to support the delivery of high quality public services that offer value for money and, in a sustainable way, take account of best practice and EU and Scottish procurement legislation.

2 Background

There have been some significant changes in the last few years, in particular:

- The EU Procurement Directives which aim to ensure that public purchases are made in a transparent and fair manner.
- The Procurement Reform (Scotland) Act 2014 that provides a national legislative framework for sustainable public procurement that supports Scotland's economic growth through improved procurement practice.

As a whole, both the Act and the Directives provide the statutory foundations for the Scottish Model of Procurement illustrated in Figure 1.

Figure 1: Scottish Procurement Model

Scottish Procurement

Scottish Model of Procurement

These important changes to the rules on public procurement in Scotland resulted from:

- Procurement Reform (Scotland) Act 2014
- EU Procurement Directive on public procurement
- EU Procurement Directive on the award of concession contracts
- EU Procurement Directive on the award of contracts by entities operating in the water, energy, transport and postal services sectors
- EU Procurement Directive for electronic invoicing in public procurement

The Scottish Model of Procurement, simplifies, standardises and streamlines procedures for both businesses and public bodies. It places sustainable and socially responsible purchasing at the heart of the process. Some of these changes are mandatory. The Council's key procurement documents, the Procurement Journey, introduced in 2012 and Contract Standing Orders will align with the requirements of the Scottish Model.

3 Purpose of the Strategy

Historically the Council has spent approximately £60 million a year on procuring goods, works and services and it needs to maximise value from this expenditure. The next few years are likely to see further financial pressures so achieving and providing evidence of value for money is paramount.

This Strategy provides a high-level view about the Council's direction of travel, identifies the actions that the Council will take and the principles it will follow to maximise value from its procurement activity.

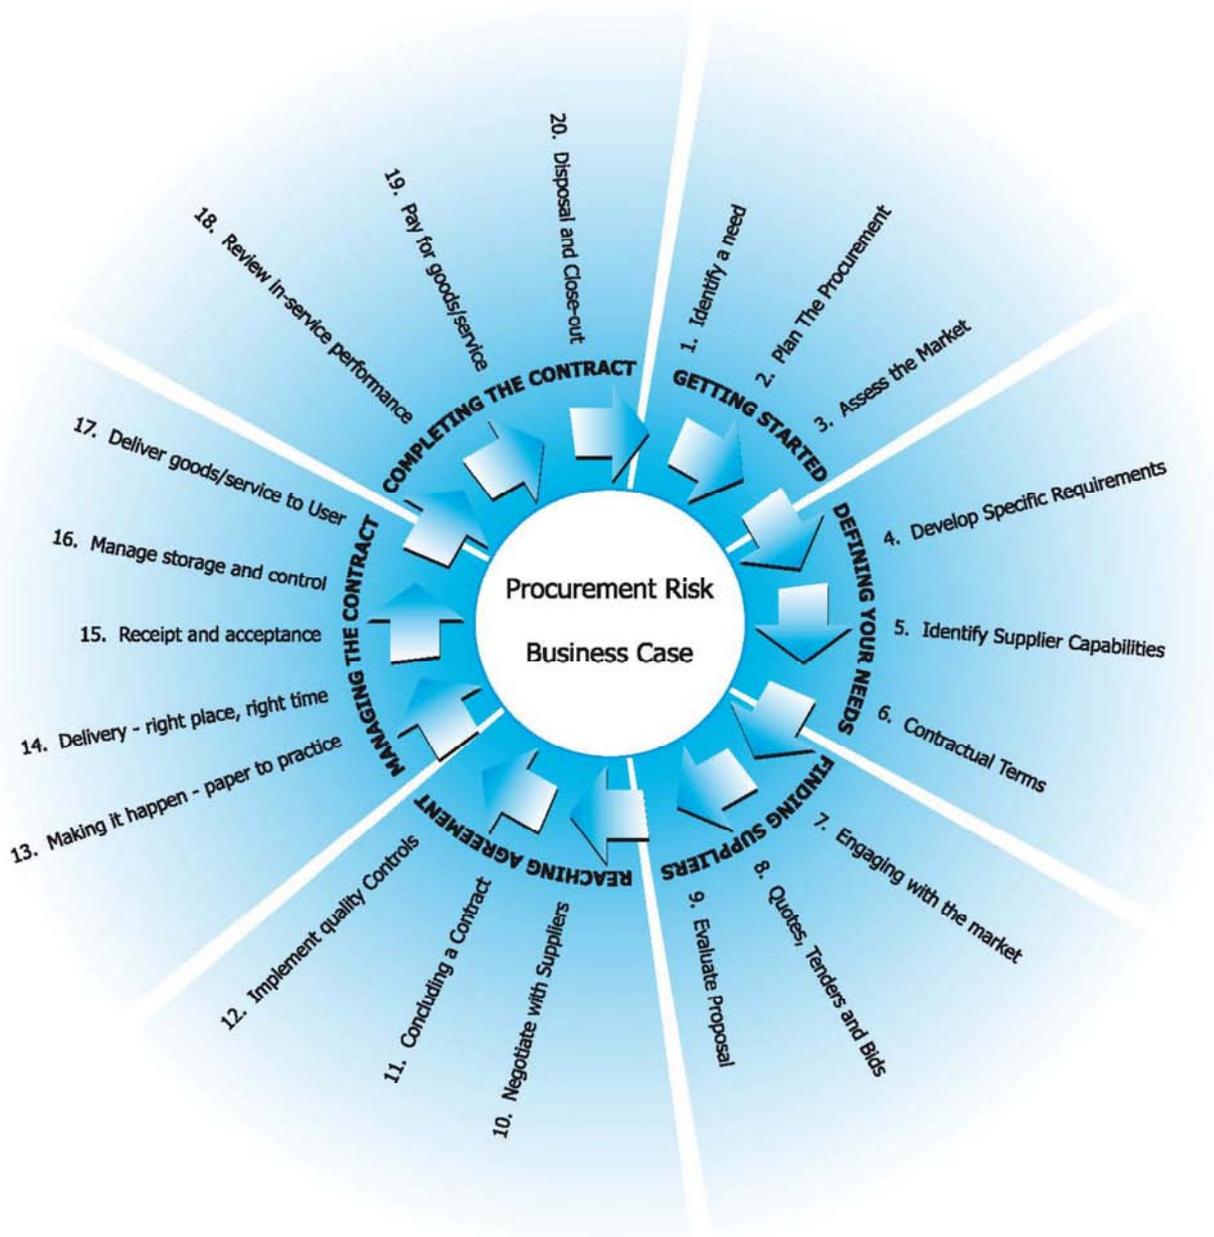

4 What is Procurement?

The Council directly provides some services from in house staff/ resources. Where it needs to acquire goods, services or works that cannot be provided in-house they are procured from external providers which may be a contractor, third sector supplier or another public sector body. Procurement is the process that is used to acquire such goods, services and works from those external providers.

Whilst responsibility for procurement resides in each Council service area, there is advice available from suitably qualified staff in the corporate centre to assist service areas with their procurement responsibilities and provide policy advice and training.

Procurement activity forms a cycle, illustrated in Figure 2, extending from recognising an unmet need right through to management of the end contract, and where appropriate will include authorisations and audit arrangements. Depending on the need being addressed, the procurement cycle may vary from a simple transactional process, such as the on-line ordering of stationery, to the complexity of a multi-year, multi million pound project such as the procurement of a design, build and ongoing facilities management solution for a school. Well-trained procurement practitioners add value to every stage of the procurement cycle, minimising costs and maximising value.

5 The Vision for Procurement

The Procurement Strategy aligns with the Corporate Plan and outcomes as expressed in the Clackmannanshire Local Outcomes Improvement Plan

- Clackmannanshire will be attractive to businesses and people and ensure fair opportunities for all.
- Our families; children and young people will have the best possible start in life
- Women and girls will be confident and aspirational, and achieve their full potential.
- Our communities will be resilient and empowered so that they can thrive and flourish

In particular the strategy aims to support outcomes 1 and 4 by developing capability of businesses in Clackmannanshire to bid for public sector contracts and wherever possible, any opportunities for the Council to retain its procurement spend within Clackmannanshire and deliver wider community benefits will be maximised.

The Council will only procure what it needs to deliver the best services possible within its available resources.

To do this we have adopted the following Strategic Themes for the period covered by the Strategy.

Strategic Theme 1

Straightforward:

To make procurement as straightforward as possible for the Council and potential suppliers, in particular to improve access for local suppliers and SMEs and to eliminate anything that does not add value to the procurement

Strategic Theme 2

Professional:

To continue to embed professional procurement and contract management skills and support the growth of commercial acumen within the Council.

Strategic Theme 3

Maximise local opportunities:

To support and encourage an effective local supplier market including the voluntary sector and the promotion of local social value in contracts.

Strategic Theme 4

Strategic:

To use sound procurement practices and innovative solutions to promote sustainability and value for money, making use of clear and detailed procurement/purchasing data, collaboration and partnership opportunities where appropriate.

Strategic Theme 5

Fair:

To ensure that, where applicable, contractors comply with Living Wage and Blacklisting Policies and to ensure that account is taken of the possible impact that the Council's approach to major projects might have on different groups of people.

Strategic Theme 6

Compliance:

To ensure that all procurement activity across the Council is compliant with procurement regulations, Contract Standing Orders and Financial Regulations.

The actions that we will take to deliver these themes are set out in the work plan for the service at Section 8.

6 The Council's Procurement Principles

Fundamental to this strategy are Procurement Principles that will guide how the Council conducts and develops its procurement activities.

General

- 6.1 Throughout any procurement the Council will be clear about the outcomes and objectives it wants to achieve.
- 6.2 The Council's required outcomes from each procurement project will be properly assessed in relation to the Council's priorities, other statutory requirements and affordability.
- 6.3 The assessment of risk associated with each procurement project will aim to achieve a balance with commercial outcomes and placing risk where it is best managed.
- 6.4 Wherever possible requirements will be expressed in terms of outcome and performance to provide scope for bidder innovation.

Value for money

- 6.5 The Council will aim to increase value for money (defined as the best whole-life cost and quality ratio to fulfil the stated requirements) and reduce processing costs.
- 6.6 The Council will take a long-term strategic view of the procurement of its requirements, including the potential for innovative funding and the opportunity for working with other public authorities especially for goods and services which can be procured more cost-effectively in a collaborative group.

Sustainability

- 6.7 Any procurement decision will aim to minimise harm to the environment and to promote conservation of natural resources.

The local supplier base

- 6.8 The Council will support businesses local to Clackmannanshire through a range of initiatives including:
 - Making it simpler to do business with the Council;
 - Reduce where possible the bidding burden on suppliers;
 - Have regard to the impact on small/local firms in the way in which a procurement is structured; and
 - Providing clear information about selling to the Council on our website.
 - Where possible increase local procurement expenditure by 2.5% each year to 21.5%

Relationships with suppliers

- 6.9 In longer-term contracts, the Council will incorporate provisions for continuous improvement both within the contracted service and to the benefit of the community it is serving.

- 6.10 In higher value contracts the Council will challenge contractors to identify ways in which they can contribute to improving the economic, social and environmental well-being of Clackmannanshire.
- 6.11 In construction contracts the Council will ask potential contractors to self-declare that they have not been and will not be involved in blacklisting and where a potential contractor is unable to do this the Council will carry out a review in a proportionate and reasonable manner to conclude whether or not the organisation should be excluded from the competition.
- 6.12 The Procurement Reform (Scotland) Act 2014 has addressed and defined living wage in national legislation. It provides for Scottish Ministers to issue statutory guidance on how a company's approach to recruitment, remuneration (including living wage), and other terms of engagement should be considered when selecting bidders and awarding public contracts, where such matters will affect the quality of service that the bidder may provide.

Equality

- 6.13 Procurement processes and documentation will reflect the Council's Equalities and Diversity Policy in line with the Equality Act 2010.
- 6.14 Equality legislation places duties on the Council to promote equality through our actions and they must have due regard to whether the award and conditions of a contract should include considerations to enable better performance of the public sector equality duty. In addition human rights standards recognise the right of everyone to just and favourable working conditions; in particular fair and equal pay, safe and healthy working conditions and reasonable working hours.
- 6.15 Section 9 of the Procurement Reform (Scotland) Act 2014 places a sustainable procurement duty on the Council before carrying out a regulated procurement, to consider how in conducting the procurement process it can improve the economic, social, and environmental wellbeing of the Council area. Wellbeing of the Council area includes, in particular, reducing inequality in the area. The Council will contribute towards improving the social wellbeing element of its sustainable procurement duty by adopting a policy to promote fair work practices in relevant public contracts.

Conduct

- 6.16 In all our dealings in the procurement process, the Council will preserve the highest standards of honesty, integrity, impartiality and objectivity and shall comply with the Council's staff conduct policies at all times.
- 6.17 In selecting contractors the Council will evaluate offers received on the basis of the most economically advantageous tender and will take into account, where appropriate, whole life costing seeking an appropriate balance between cost and quality.
- 6.18 In any procurement the Council will ensure that its approach to the market is consistent with these principles.

Health and Social Care Procurement

- 6.19 Section 12 of the Procurement Reform (Scotland) Act provides for a contracting authority, such as the Council to award health and social care contracts or framework agreements between 50,000 GBP and 615,278 GBP without seeking offers in relation to the proposed contract. There are however provisions that still apply if the Council chooses to award a contract without advertising for example Section 23(2) of the Act: The Council must publicise a contract award notice on Public Contracts Scotland. Many health and social care contracts require special consideration because the quality or availability of these services can have a significant impact on the quality of life and health of people who might use these services as well as their carers. Also, services are becoming increasingly personalised to better meet people's needs which, in turn, has implications for how support is planned and purchased.
- 6.20 The Council also has to work with the Integrated Joint Board(IJB) in the provision of Adult Social Care. The IJB is responsible for producing a commissioning strategy but the IJB cannot, as an entity, contract with suppliers. It is for the Council along with the other IJB partners to manage the procurement. Services in regard to children and criminal justice services will also be expected to be procured within the context of a commissioning strategy.
- 6.21 The Council will exercise its responsibilities in compliance with the provisions in Section 12 in a responsible and proportionate way ensuring that the best interests of service users are accommodated within fair and transparent procurement practices.

7 Spend / Finance

This section details historical and projected spend information and spend analysis for the Council covering the financial year 2017/18. Greater detail is provided in the Annual Procurement report which is available on the Council's website.

Small Company	28.40	32.69
SME Total	62.62	66.44

Percentage Spend with Local Suppliers	14.01%
--	---------------

Whilst the share of spend in the local area is relatively low, it is also recognised that there is a fairly limited local supplier base but work continues with local suppliers to provide opportunities to work with the Council.

The relatively small geographic areas covered by Clackmannanshire and small number of companies within the local area are likely to be key factors in the low share of spend.

Local spend by Clackmannanshire Council is dominated by Social Care & Services where spend is £5,947,282, followed by Travel & Accommodation £882,435, and Construction £595,220

The majority of Social Care & Services is spent on Adult Services £5,207,825 and for Travel & Accommodation the spend is only on Travel - School transport.

The Council will pay suppliers promptly, and includes a clause in its standard terms and conditions stating that undisputed invoices will be paid no later than 30 days from receipt.

The Council wish to ensure that this behaviour flows through the supply chain includes a clause stating that:

“where you sub-contract any work under the Contract, that sub-contract must contain a clause requiring you to pay your sub-contractor within 30 days of you receiving a valid invoice from your sub-contractor.”

8 Action Plan

The table below summarises the actions and initiatives planned over the Strategy period to achieve the outcomes set out in the Vision for Procurement at section 5.

A number of these are aspirational and priority will be given to statutory obligations.

Elements of the effectiveness of the procurement strategy will be measured via the [Procurement & Commercial Improvement Programme](#) (PCIP).

Clackmannanshire Council Procurement Strategy

Consultation response report

Overview

The Council developed an Interim Procurement Strategy to comply with the requirement to prepare and publish a procurement strategy by 31 December 2016. The first procurement strategy covered the remainder of the Council's 2016/17 financial year and its full 2017/18 financial year

We stated that during the 2017/18 period the Council would undertake relevant and proportionate consultation and engagement when preparing the full procurement strategy before approval by the Council

The Consultation was undertaken using the Council consultation hub and opened on 9th August 2017 and closed on 29th September 2017 seeking views on the interim Procurement Strategy and Action plan. Correspondence was also sent directly to a number external stakeholders making them aware of the consultation and seeking views from their members and extended networks

The council received two responses over this period and one comment after this period that has also been included within this report.

Responses received from:

UNISON

CTSI

NHS – Heath and Social Care Integration

Consultation Questions and Responses

Strategic Context

Question: Are there any strategic issues which the strategy has not considered? If yes please identify them below and give details of how the Procurement Strategy should address them.

Responses:

- 1 Clackmannanshire Council should focus on the local economy through a buy local procurement strategy which would increase the Council's overall sustainability by adding additional finance to the local economy. Environmentally, this will also increase the green credentials of the Council by reducing product delivery/contractors commute and reducing the overall contract delivery miles. Procurement can be used as a viable tool in fostering both economic and environmental goals and as a key policy and planning tool.
- 2 Procurement must also foster and adopt the Fair Work directive by removing contractors who use Zero Hour Contracts, who do not provide a minimum of pay in line with the living wage and who do not pay for travelling time and expenses. Procurement should also be weighted in favour of companies which provide apprenticeships, promote health and safety and utilise environmental sustainable policies.
- 3 Outsourcing and private partnerships have time and time again been shown to cost more in the long run when compared to keeping services and staff in house. For instance, PPP used to procure new schools; there are numerous examples in UK public sector of IT Services being outsourced only to be brought back in house due to spiralling costs or the outsourcer going bust. Don't procure in isolation; consult with staff, service users, unions and stakeholders prior to testing the market. Often business cases are blinkered and all the facts are not known until after contracts are awarded.
- 4 In the spirit and ethos of this procurement consultation process, there should be recognition of the fact that if procurement contracts have a high proportion of their costs coming from the revenue budget, this will directly impact the Council's ability to employ staff and thereby support the local economy. It is, therefore, in the spirit of this consultation to adopt a procurement strategy that favours Capital expense over Revenue.
- 5 Any outsourcing/framework companies should recognise Trade Unions, protect workers rights in line with the internal corporate policies and maintain pay awards at a minimum in line with local government awards. No employees should be disadvantaged through being out-sourced. When considering any out sourcing options, the contract should include an insolvency clause or Performance Bond in case the company becomes insolvent, ceases trading or is taken over.
- 6 UNISON has already submitted a procurement agreement covering a lot of these points and more, including consultation with stakeholders. We would ask that this paper should also be considered in formulating this strategy as well as being subject to further discussion with UNISON

On reading I found no reference to the Health and Social Care Partnership or the Integration Authority and that councils will require to procure services for the Partnership as

directed by the Integration Authority (Integration Joint Board). This is an important strategic development locally that should be referenced.

How Clackmannanshire Council Carries Out Procurement

Question: The Interim Procurement Strategy has been put in place to ensure the Council procures only what it needs to deliver the best services possible within its available resources

Are there any specific issues which relate to the way in which the Council carries out procurement which you would like to see covered by the new policy?

Responses.

Strategic Themes

Question: Six priority themes have been identified in the Strategy:

Straightforward:

Professional:

Maximise local opportunities:

Strategic:

Fair:

Compliance:

What are your views on the themes identified?

Responses.

1 This can't be answered until I have read your definitions provided on the next pages.

Question: Would you propose an additional or alternative theme(s)?

Responses.

1 Local Economy
Fair Work
Protecting Service Delivery
Safe Work
Protecting Futures
No to outsourcing"

Strategic Theme 1 Straightforward Procurement
To make procurement as straightforward as possible for the Council and potential suppliers, in particular to improve access for local suppliers and SMEs and to eliminate anything that does not add value to the procurement
Action
Deliver electronic procurement systems to satisfy new legislative requirements.
Review impact of newly implemented EU Procurement Rules and UK legislation and make necessary changes to existing approaches.

Question: Are these the right Actions for this theme? (Please tick Yes or No below.)

Response Yes:

Question: Do you have any views on the actions we have set for these themes?

Response

- 1 CTSi comment/recommendation: Any guidance produced for local/third sector suppliers and SMEs is clear concise and easy to follow, and includes a section with regard to local and national support bodies, and how they can improve access.

Strategic Theme 2 Embed professional and contract management Skills
To continue to embed professional procurement and contract management skills across the Council. This goes hand in hand with moves to increase the commercial acumen of the Council
Action
Provide strategic professional advice to the corporate review of how to transform the way the Council procures its works, services and supplies and to propose a new model for procurement and purchasing activities across the Council.
Provide support and learning and development opportunities to staff engaged in procurement processes to ensure they are able to deliver effectively and are empowered to deal with procurement issues.

Question: Are these the right Actions for this theme? (Please tick Yes or No below.)

Response Yes:

Question: Should we include any more actions (please detail).

Response

- 1 Don't look at procurement as they only training and development action.
- 2 Training and procurement need to involve the professionals in that service, stakeholders, unions, staff at the coal face, and elected officials to ascertain what the impact of any procurement decision will have. Do not procure in isolation.
- 3 CTSi comment/recommendation: The development and delivery of training with regard to 'Understanding Social Enterprise/Third Sector Legal Structures', and the impact/opportunities re Community Benefit Clauses could be offered via CTSi. CTSi and the Council could collaborate on the production of a guide for analysing and measuring social value/impact in the assessment of bids.

Question: Do you have any views on the actions we have set for these themes?

Response

- 1 Procurement must also foster and adopt the Fair Work directive by removing contractors who use Zero Hour Contracts, who do not provide a minimum of pay in line with the living wage and who do not pay for travelling time and expenses.
- 2 Procurement should also be weighted in favour of companies which provide apprenticeships, promote health and safety and utilise environmental sustainable policies

Strategic Theme 3 Support and encourage the local supplier market
To support and encourage an effective local supplier market including the voluntary sector and the promotion of local social value in contracts.
Action
Revise guidance on Council's website about selling to the Council.
Refresh and publish online schedule of proposed procurements to promote future contract opportunities.
Continue to use Public Contract Scotland portal as our main advertising media.
Where possible, utilise the Public Contract regulations to enable Officers to place contracts with supported businesses more readily without having to resort to full tendering exercises, e.g. <ul style="list-style-type: none"> • Identify third sector suppliers that meet 'Supported Business' criteria; and • Identify opportunities to make use of reserved contracts for local supported businesses at monthly CTSI meetings.
For non regulated procurement exercises officers will include at least one local supplier to tender where possible
Support businesses local to Clackmannanshire through a range of initiatives including: <ul style="list-style-type: none"> • Making it simpler to do business with the Council; • Reduce to a minimum the bidding burden on suppliers; • Have regard to the impact on small/local firms of the way in which a procurement is structured and how they are paid; and • Provide clear information about selling to the Council on the Council's website.
Extend awareness of implications of Public Procurement Reform legislation through; <ul style="list-style-type: none"> • Workshop discussions to brief third sector on Council procurement policy and changes in legislation; and • Establish monthly communication between Council procurement manager and CTSI.
Better Align Service Level Agreements with Alliance Priorities by: <ul style="list-style-type: none"> • Mapping grant-aid and commissioned spend from the Council to the local third sector; and • Initiating a review and appropriate changes to Service Level Agreements based on Alliance policy priorities.

Question: Are these the right Actions for this theme? (Please tick Yes or No below.)

Response No:

Question: Should we include any more actions (please detail).

1. Third sector should not be at the cost of Council Staff.
2. Procurement must also foster and adopt the Fair Work directive by removing contractors who use Zero Hour Contracts, who do not provide a minimum of pay in line with the living wage and who do not pay for travelling time and expenses.
3. Procurement should also be weighted in favour of companies which provide apprenticeships, promote health and safety and utilise environmental sustainable policies.

4. CTSi comment/recommendation: We would propose lowering the threshold to £5K with regard to tender exercises to meet the needs of smaller local Third Sector suppliers.
5. We would also recommend that the Procurement Strategy take in to account and align with the Council's Local Outcome Improvement Plan (LOIPs) and that communication of its purpose, priorities and outcomes are better communicated across departments.
6. Production of a clear and concise guide for Third Sector suppliers that includes guidance with regard to partnership/consortia bids.
7. CTSi is working towards mapping social enterprise trading activity within the county, with a view to producing a directory of social enterprise suppliers. We also feel it may be useful to run a series of 'Meet the Supplier' events to encourage greater engagement from the third sector with the procurement process, and to create greater understanding of Third sector suppliers amongst council officers

Question: Do you have any views on the actions we have set for these themes?

Response

- 1 Any outsourcing/framework companies should recognise Trade Unions, protect workers rights in line with the internal corporate policies and maintain pay awards at a minimum in line with local government awards. No employees should be disadvantaged through being out-sourced.
- 2 When considering any out sourcing options, the contract should include an insolvency clause or Performance Bond in case the company becomes insolvent, ceases trading or is taken over.

Strategic Theme 4 Sound procurement practices and innovative solutions
To use sound procurement practices and innovative solutions to promote sustainability and value for money, making use of clear and detailed procurement/purchasing data, collaboration and partnership opportunities where this accords with the Council's Principles of partnership working.
Action
Review scope for and deliver further corporate contracts to consolidate spend.
Revise template documents and guidance with intention of promoting scope for innovation by the market in appropriate procurements.
Utilise the Scottish Government's sustainable prioritisation tool to identify and prioritise procurement activity.
Utilise the Flexible Framework Self-Assessment Tool(FFSAT) to provide a Sustainable Action Plan to establish the performance level of sustainable procurement across the council.
Create and manage a sustainable register to capture, monitor and report on the sustainable outcomes achieved via procurement activity, and link to related internal and external reporting requirements.
Establish systems to record the impact of procurement policies and practices on the council's climate change duties.

Question: Are these the right Actions for this theme? (Please tick Yes or No below.)

Response Yes:

Question: Should we include any more actions (please detail).

Response

- 1 CTSi comment/recommendation: We believe that innovative solutions can be found through greater collaborative approaches between the Council and the local Third sector. Social Enterprises have long been a source of social and economic innovation, and opportunities exist to harness this locally, for example, the development of community benefit clause subcontracting to third sector organisations or consortia, and/or the development of a subcontractor community benefit directory.

Question: Do you have any views on the actions we have set for these themes?

Response No

Strategic Theme 5 Fair procurement
To ensure that, contractors comply with our Living Wage and Blacklisting Policies and to ensure that we take account of the possible impact that our approach to major projects might have on different groups of people.
Action
Establish simple methodology for assessing best value case for using the Living Wage requirement in service and works contracts,
Embed Blacklisting protocols in procurement processes for construction contracts.
Ensure that where appropriate EQIA's are completed for regulated procurements.
